@sportretina

VIEW LIVE COURT ACTION FROM YOUR CLUB'S LEISURE CAFE OR FROM YOUR HOME.

Grow your revenue

Encourage members and guests to spend more time - and money - at your club's facilities while they watch the live streams.

Host in-club competitions and special event days, drawing larger crowds eager to experience the action live and in person.

Become our partner and sell live streams, recorded matches and match analytics reports to your members, sharing the revenue with us.

Your benefits

Boost members' engagement

Investing in our portable camera equipment enriches the member experience and opens up new avenues for revenue and engagement within your club. By bringing matches to life and making them a communal highlight, you'll foster a vibrant club culture that members will be excited to be part of.

Elevate your club experience

In today's competitive sports and leisure market, standing out and providing exceptional value to your members is more important than ever. Our portable live streaming technology is designed to revolutionise how racquet sports matches are enjoyed, making every game an event not to be missed.

Cost-effective solution

Our portable video streaming kit is an affordable alternative to traditional broadcasting setups, offering high-quality streaming without the hefty price tag. Easy set-up and portability allow for the cameras to be moved to different courts as needed, maximising usage and value to your club.

THE SPORTRETINA OFFER

- Multi-camera live streaming and video recording
- **Battery-powered wireless Wi-Fi cameras (up to 6 hours autonomy)**
- Control the system from your phone
- **Touchscreen watch for hands-free control**
- Multi-purpose attachments for easy placement around the court
- **Stream to the web (Wi-Fi hotspot required) or locally**
- Add scores, advertising, analytics and stats to your streams and recordings
- **Manage streams and recordings from our cloud portal**

Portable video camera system fast to set up and easy to use.

Thanks to our multi-purpose attachments, the SportReTiNA cameras only take a few minutes to set up. Connect them to your wifi wireless router and you are ready to go. If you don't have internet access, you can still live stream locally to your personal device or just enable video recording on all cameras for later viewing.
